

Department of Human Services
IOWA Medicaid Program
Preferred / Recommended Only Drug
List(Two Drug Columns)
Effective July 18, 2011

Highlighted categories denote new changes to the PDL since previous update

Column Header Explanations:

B, G or O:

- B = Brand
- G = Generic
- O = OTC

P, N, R, or NR:

- P = Preferred
- N = Non-Preferred
- R = Recommended
- NR = Non-Recommended

1	ANTIVERT 50mg - Use two MECLIZINE HCL 25mg instead	46	Grandfather for seizure disorder.
3	BUSPIRONE 30mg - Use 2 BUSPIRONE 15mg tablets	47	Preferred with Conditions and allow a one time fill.
6	FLUOXETINE HCL 20mg TABS - Use FLUOXETINE HCL 20mg CAPS instead	48	Those 0-18 should be referred to the Vaccines for Children Program.
7	Preferred only for children 12 years of age and under.	49	Preferred for ages 0-12, PA Required ages 13-18, Not covered ages 19 and above.
11	PA Required	50	Requires a Selected Brand Name Drug PA
12	PA Required > 60 days	51	Actos 30mg and 45mg-Use multiples of Actos 15mg
13	PA Required > 90 days	52	Imipramine Pamoate - Use Imipramine HCL
14	PA Required > Quantity Limit 10 Days	56	Preferred for Upstate Pharma manufacturer only, all others non-preferred
16	Grandfathered for Existing Users with previous Actos use or CHF diagnosis	57	Duplicate therapy with other antipsychotics will be allowed for a maximum of 30 days.
17	PA Required> 12 Units/30 Days supply	58	PA required limited to package size of #14 for initial fill
19	Preferred < 8yo	59	PA required limited to package size of #110 for initial fill
21	PROZAC,FLUOXETINE HCL 40mg CAPS - Use two FLUOXETINE HCL 20mg CAPS instead	60	Preferred only for children 6 months to 1 year of age and 72 hour emergency fill not allowed
22	RHEUMATREX - Write METHOTREXATE instead	62	3 tablets per 60 days allowed. PA required for quantities exceeding this limit
23	ULTRACET - Use Tramadol & Acetaminophen separately	63	Initial fill limited to 15 day supply.
24	PA Required >= 21 yo.	64	Use Multiples of Phenytoin Sodium 100mg Capsules.
25	PA Required: > 14 Units/30Days Supply		
27	PA required for quantities exceeding 12-40mg capsules and 8-80mg capsules.		
28	PA required for quantities exceeding 12-4mg tabs, 12-8mg tabs, 4-24mg tabs, 50ml/month - oral sol, 4-20ml vials, and 8-2ml vials.		
29	PA required for quantities exceeding 12-4mg tabs, 12-8mg tabs.		
34	PA required, Limit of 144 for initial fill		
36	Payable for members who are 12 years of age and older. Quantity limitations of 12 packets/4 weeks (28 days) or a total of 48 packets/16 weeks (112 days).		
37	Restricted to persons 40 years of age and older.		
38	Package size 14 count is Non-Preferred		
39	Grandfather Existing Users		
41	Package size 5 count is Non-Preferred		
42	PA Required: >15 units/30 day supply		
43	PA required for concurrent therapy with long acting injectable and oral antipsychotics of the same chemical entity after 12 weeks (84 days) of concomitant therapy.		
44	PA required if ACE-I not previously filled.		

**Iowa Medicaid Preferred Drug List (PDL)
New Drug Process**

1). **Therapeutic classes of drugs already reviewed by the Pharmaceutical and Therapeutics (P&T) Committee**

· New drug entities (including new generics), and new drug product dosage forms of existing drug entities) in therapeutic classes already reviewed by the P&T Committee will be identified weekly and immediately be coded as "**Non-preferred-Prior Authorization required**" until presented at the next quarterly scheduled P&T Committee meeting. These prior authorization restrictions will continue through the review process, including while committee recommendations are being made, and lasting until DHS makes a final determination.

2). **Therapeutic classes of drugs not yet reviewed by the Pharmaceutical and Therapeutics (P&T) Committee**

New drug entities for conditions without any available PDL choices in therapeutic classes not yet reviewed by the P&T Committee **will remain payable**, in effect preferred by default, until the therapeutic class is discussed. Once this review occurs for the new therapeutic class, the non-preferred default policy will apply to subsequent new drug entries.

3). **Exceptions to the Non-preferred default policy for new PDL drugs**

There are two major potential exceptions to the non-preferred default policy for new PDL drugs:

A). If a new medication is classified as a priority drug by the FDA, the State may indicate that such a drug is preferred, until the drug is reviewed by the P&T Committee at the nearest scheduled meeting.

B). The State may decide to designate a new drug as "draft preferred" and provide immediate access and increased therapeutic choice to physicians until the drug is reviewed by the P&T Committee at the nearest scheduled meeting if:

- a new drug is therapeutically equivalent or superior to existing preferred or non-preferred choices, and
- is as safe or safer than existing preferred or non-preferred choices, and
- the net cost, adjusted for all rebates, is less expensive than all existing preferred choices.

4). **Existing PDL Drugs**

· Although the State discourages supplemental rebate offers on existing PDL drugs between annual bidding periods, it may entertain such bids and may accept them if they are determined to represent significant additional savings or if they would replace a delinquent manufacturer's product or a preferred drug pulled from the marketplace or significantly restricted by the FDA. This interim preferred status will remain in effect until the drug is reviewed by the P&T Committee at the next scheduled meeting. Supplemental rebates will only be invoiced for approved drugs under contract. Draft preferred drugs with supplemental rebates will not be invoiced until approved by the Committee and accepted by the State. At that time, the supplemental rebates will be invoiced back to the effective date of the agreement, which is the date the drug began to benefit from preferred status.
