

DRAFT

Explanation:

* - Color highlighted drugs are draft recommendations to be voted on at the December 2, 2004 P & T meeting . If approved by the P&T Committee, the highlighted drugs will become part of the PDL with preferred and non-preferred designations. This means that nonpreferred brands (designated as N) and nonpreferred generics (also designated as N) will require prior authorization. Drugs described as recommended (R) or non-recommended (NR) will not require prior authorization. Please note that the Atypical and Special Atypical Antipsychotics will not be discussed until the March, 2005 P&T meeting. The Antihemophilic Agents, some of the Antineoplastic categories, and all of the Antiretrovirals will not be discussed until the June, 2005 P&T meeting.
