- R = Recommended
- NR = Non-Recommended

3	BUSPIRONE 30mg - Use 2 BUSPIRONE 15mg tablets
6	FLUOXETINE HCL 20mg TABS - Use FLUOXETINE HCL 20mg CAPS instead
11	PA Required
13	PA Required > 90 days
16	Grandfathered for Existing Users with previous Actos use or CHF diagnosis
17	PA Required> 12 Units/30 Days supply
19	Preferred < 8yo
21	PROZAC,FLUOXETINE HCL 40mg CAPS - Use two FLUOXETINE HCL 20mg CAPS instead
22	RHEUMATREX - Write METHOTREXATE instead
23	ULTRACET - Use Tramadol & Acetaminophen separately
24	PA Required >= 21 yo.
25	PA Required: > 14 Units/30Days Supply
28	PA required for quantities exceeding 12-4mg tabs, 12-8mg tabs, 4-24mg tabs, 4-20ml vials, and 8-2ml vials.
29	PA required for quantities exceeding 12-4mg tabs, 12-8mg tabs.
34	PA required, Limit of 144 for initial fill
36	Payable for members who are 12 years of age and older. Quantity limitations of 12 packets/4 weeks (28 days) or a total of 48 packets/16 weeks (112 days).
37	Restricted to persons 40 years of age and older.
39	Grandfather Existing Users
43	PA required for concurrent therapy with long acting injectable and oral antipsychotics of the same chemical entity after 12 weeks (84 days) of concomitant therapy.
44	PA required if ACE-I not previously filled.
46	Grandfather for seizure disorder.
47	Preferred with Conditions and allow a one time fill.
49	Preferred for ages 0-12, PA Required ages 13-18, Not covered ages 19 and above.
50	Requires a Selected Brand Name Drug PA
52	Imipramine Pamoate - Use Imipramine HCL
57	Duplicate therapy with other antipsychotics will be allowed for a maximum of 30 days.
58	PA required limited to package size of #14 for initial fill
59	PA required limited to package size of #110 for initial fill

61	PA Required
62	3 tablets per 60 days allowed. PA required for quantities exceeding this limit
63	Initial fill limited to 15 day supply.
64	Use Multiples of Phenytoin Sodium 100mg Capsules.
65	PA required. Preferred for post surgery DVT prophylaxis only.
67	PA required limited to package size 168 for initial fill
68	PA required limited to package size 40ml for initial fill
69	Payable for members who are 18 years of age and older. Quantity limitations of 15 grams/4 weeks (28 days) or a total of 60 grams/16 weeks (112 days)
70	Payable for members 50 years of age and older without prior authorization
72	Preferred < 2 years of age
73	No manual PA required if 2 applications of a preferred permethrin product is in the member's pharmacy claims history in past 30 days. Trial of Natroba or Ulesfia is required prior to consideration of any non-preferred agent.
74	PA Required < 4 years of age
76	PA Required < 15 years of age
77	PA Required < 6 years of age
78	PA Required < 9 years of age
79	PA Required > 15 units / 30 days. Initial fill limited to 14 day supply.
80	PA Required < 18 years of age
81	Norvir tablets - Use Norvir capsules instead
84	PA Required < 5 years of age
86	Preferred product is authorized generic distributed by Watson. PA Required >= 21 yo.
87	No manual PA required if HMG-CoA reductase inhibitor found in member's pharmacy claims history in past 12 months.
88	No manual PA required if a preferred agent is found in member's pharmacy claims history in past 12 months

**Iowa Medicaid Preferred Drug List (PDL)
New Drug Process**

New Drug Entities

New drug entities (including new generics), and new drug product dosage forms of existing drug entities will be identified weekly and immediately be coded as "**Non-preferred-Prior Authorization required**" until presented at the next quarterly scheduled P&T meeting. These prior authorization restrictions will continue through the review process, including while committee recommendations are being made, and lasting until DHS makes a final determination.

Exceptions to the Non-preferred default policy for new PDL drugs

There are two major potential exceptions to the non-preferred default policy for new PDL drugs:

- A). If a new medication is classified as a priority drug by the FDA, the State may indicate that such a drug is preferred, until the drug is reviewed by the P&T Committee at the nearest scheduled meeting.
- B). The State may decide to designate a new drug as "draft preferred" and provide immediate access and increased therapeutic choice to physicians until the drug is reviewed by the P&T Committee at the nearest scheduled meeting if:
- a new drug is therapeutically equivalent or superior to existing preferred or non-preferred choices, and
 - is as safe or safer than existing preferred or non-preferred choices, and
 - the net cost, adjusted for all rebates, is less expensive than all existing preferred choices.

Existing PDL Drugs

Although the State discourages supplemental rebate offers on existing PDL drugs between annual bidding periods, it may entertain such bids and may accept them if they are determined to represent significant additional savings or if they would replace a delinquent manufacturer's product or a preferred drug pulled from the marketplace or significantly restricted by the FDA. This interim preferred status will remain in effect until the drug is reviewed by the P&T Committee at the next scheduled meeting. Supplemental rebates will only be invoiced for approved drugs under contract. Draft preferred drugs with supplemental rebates will not be invoiced until approved by the Committee and accepted by the State. At that time, the supplemental rebates will be invoiced back to the effective date of the agreement, which is the date the drug began to benefit from preferred status.
