

Department of Human Services
IOWA Medicaid Program
Preferred / Recommended Only Drug List
(Two Drug Columns)
Effective January 1, 2015

Highlighted categories denote new changes to the PDL since previous update

Column Header Explanations:

B, G or O:

- B = Brand
- G = Generic
- O = OTC

P, N, R, or NR:

- P = Preferred
- N = Non-Preferred
- R = Recommended
- NR = Non-Recommended

3	BUSPIRONE 30mg - Use 2 BUSPIRONE 15mg tablets	59	PA required limited to package size of #110 for initial fill
6	FLUOXETINE HCL 20mg TABS - Use FLUOXETINE HCL 20mg CAPS instead	62	3 tablets per 60 days allowed. PA required for quantities exceeding this limit
11	PA Required	63	Initial fill limited to 15 day supply.
13	PA Required > 90 days	64	Use Multiples of Phenytoin Sodium 100mg Capsules.
16	Grandfathered for Existing Users with previous Actos use or CHF diagnosis	65	PA required. Preferred for post surgery DVT prophylaxis only.
17	PA Required > 12 Units/30 Days supply	67	PA required limited to package size 168 for initial fill
19	Preferred < 8yo	68	PA required limited to package size 40ml for initial fill
21	PROZAC, FLUOXETINE HCL 40mg CAPS - Use two FLUOXETINE HCL 20mg CAPS instead	69	Payable for members who are 18 years of age and older. Quantity limitations of 15 grams/4 weeks (28 days) or a total of 60 grams/16 weeks (112 days)
22	RHEUMATREX - Write METHOTREXATE instead		
23	ULTRACET - Use Tramadol & Acetaminophen separately	70	Payable for members 50 years of age and older without prior authorization
24	PA Required >= 21 yo.	72	Preferred < 2 years of age
25	PA Required: > 14 Units/30Days Supply	73	No manual PA required if one course of treatment of a preferred permethrin product is in the member's pharmacy claims history in past 30 days. Trial of Natroba or Ulesfia is required prior to consideration of any non-preferred agent.
28	PA required for quantities exceeding 12-4mg tabs, 12-8mg tabs, 4-24mg tabs, 4-20ml vials, and 8-2ml vials.		
29	PA required for quantities exceeding 12-4mg tabs, 12-8mg tabs.	74	PA Required < 4 years of age
34	PA required, Limit of 144 for initial fill	76	PA Required < 15 years of age
36	Payable for members who are 12 years of age and older. Quantity limitations of 12 packets/4 weeks (28 days) or a total of 48 packets/16 weeks (112 days).	77	PA Required < 6 years of age
		78	PA Required < 9 years of age
		79	PA Required > 15 units / 30 days. Initial fill limited to 14 day supply.
37	Restricted to persons 40 years of age and older.		
39	Grandfather Existing Users	80	PA Required < 18 years of age
43	PA required for concurrent therapy with long acting injectable and oral antipsychotics of the same chemical entity after 12 weeks (84 days) of concomitant therapy.	81	Norvir tablets - Use Norvir capsules instead
		84	PA Required < 5 years of age
		86	Preferred product is authorized generic distributed by Watson. PA Required >= 21 yo.
44	PA required if ACE-I not previously filled.	87	No manual PA required if HMG-CoA reductase inhibitor found in member's pharmacy claims history in past 12 months.
46	Grandfather for seizure disorder.		
47	Preferred with Conditions and allow a one time fill.		
49	Preferred for ages 0-12, PA Required ages 13-18, Not covered ages 19 and above.	88	No manual PA required if a preferred agent of a different chemical entity is found in member's pharmacy claims history in past 12 months
50	Requires a Selected Brand Name Drug PA		
52	Imipramine Pamoate - Use Imipramine HCL	89	PA Required < 7 years of age
57	Duplicate therapy with other antipsychotics will be allowed for a maximum of 30 days.	90	No manual PA required if a preferred injectable MS agent is found in member's pharmacy claims history in past 12 months
58	PA required limited to package size of #14 for initial fill		

**Iowa Medicaid Preferred Drug List (PDL)
New Drug Process**

New Drug Entities

New drug entities (including new generics), and new drug product dosage forms of existing drug entities) will be identified weekly and immediately be coded as "**Non-preferred-Prior Authorization required**" until presented at the next quarterly scheduled P&T Committee meeting. These prior authorization restrictions will continue through the review process, including while committee recommendations are being made, and lasting until DHS makes a final determination.

Exceptions to the Non-preferred default policy for new PDL drugs

There are two major potential exceptions to the non-preferred default policy for new PDL drugs:

A). If a new medication is classified as a priority drug by the FDA, the State may indicate that such a drug is preferred, until the drug is reviewed by the P&T Committee at the nearest scheduled meeting.

B). The State may decide to designate a new drug as "draft preferred" and provide immediate access and increased therapeutic choice to physicians until the drug is reviewed by the P&T Committee at the nearest scheduled meeting if:

- a new drug is therapeutically equivalent or superior to existing preferred or non-preferred choices, and
- is as safe or safer than existing preferred or non-preferred choices, and
- the net cost, adjusted for all rebates, is less expensive than all existing preferred choices.

Existing PDL Drugs

Although the State discourages supplemental rebate offers on existing PDL drugs between annual bidding periods, it may entertain such bids and may accept them if they are determined to represent significant additional savings or if they would replace a delinquent manufacturer's product or a preferred drug pulled from the marketplace or significantly restricted by the FDA. This interim preferred status will remain in effect until the drug is reviewed by the P&T Committee at the next scheduled meeting. Supplemental rebates will only be invoiced for approved drugs under contract. Draft preferred drugs with supplemental rebates will not be invoiced until approved by the Committee and accepted by the State. At that time, the supplemental rebates will be invoiced back to the effective date of the agreement, which is the date the drug began to benefit from preferred status.
