

Department of Human Services
IOWA Medicaid Program
Preferred / Recommended Only Drug List
(Two Drug Columns)
Effective June 1, 2022

Highlighted categories denote new changes to the PDL since previous update

Column Header Explanations:

B, G or O:

- B = Brand
- G = Generic
- O = OTC

P, N, R, or NR:

- P = Preferred
- N = Non-Preferred
- R = Recommended
- NR = Non-Recommended

3	BUSPIRONE 30mg - Use 2 BUSPIRONE 15mg tablets	76	PA Required < 15 years of age
6	FLUOXETINE HCL 20mg TABS - Use FLUOXETINE HCL 20mg CAPS instead	77	PA Required < 6 years of age
11	PA Required	78	PA Required < 9 years of age
13	PA Required > 90 days	80	PA Required < 18 years of age
16	Grandfathered for Existing Users with previous Actos use or CHF diagnosis	87	No manual PA required if HMG-CoA reductase inhibitor found in member's pharmacy claims history in past 12 months.
17	PA Required > 12 Units/30 Days supply	90	No manual PA required if a preferred injectable MS agent is found in member's pharmacy claims history in past 12 months
19	Preferred < 8yo	93	No PA required for members 6 years of age or older when dosed within established quantity limits
23	ULTRACET - Use Tramadol & Acetaminophen separately	98	PA required. Preferred for all indicated diagnoses after step through one preferred TNF.
24	PA Required >= 21 yo.	99	Preferred product is authorized generic of EpiPen distributed by labeler 49502
27	PA required for quantities exceeding 12-40mg capsules and 8-80mg capsules	105	Unit Dose Preferred. No manual PA required if a preferred artificial tear agent is found in member's pharmacy claims history in past 12 months
28	PA required for quantities exceeding 60-4mg tabs, 60-8mg tabs	106	Preferred for indicated age group (2 to 12 years of age)
29	PA required for quantities exceeding 60-4mg tabs, 60-8mg tabs.	110	72-hour emergency supply not available
36	Payable for members who are 12 years of age and older. Quantity limitations of 12 packets/4 weeks (28 days) or a total of 48 packets/16 weeks (112 days).	111	PA required < 6 years of age and > 17 years of age
37	Restricted to persons 40 years of age and older.	112	PA Required < 3 years of age and > 20 years of age
39	Grandfather Existing Users	113	PA Required < 6 years of age and > 20 years of age
43	PA required for concurrent therapy with long acting injectable and oral antipsychotics of the same chemical entity after 12 weeks (84 days) of concomitant therapy.	117	PA Required < 12 years of age
46	Grandfather for seizure disorder. Anticonvulsants	119	Preferred product is labeler 00781
	Grandfather for seizure disorder.	120	Preferred after step through a preferred reconstitution product
47	Preferred with Conditions and allow a one time fill.	121	Preferred after step through armodafinil or modafinil
50	Requires a Selected Brand Name Drug PA	122	PA required for quantities exceeding 50mL per 30 days
52	Imipramine Pamoate - Use Imipramine HCL	125	PA required. Preferred for treatment with quantity limit; Non-Preferred for prophylaxis
63	Initial fill limited to 15 day supply.	126	PA Required < 6 years of age and > 9 years of age
64	Use Multiples of Phenytoin Sodium 100mg Capsules.		
69	Payable for members who are 18 years of age and older. Quantity limitations of 30 grams/4 weeks (28 days) or a total of 120 grams/16 weeks (112 days)		
70	Payable for members 50 years of age and older without prior authorization		
72	Preferred < 2 years of age		
74	PA Required < 4 years of age		

**Iowa Medicaid Preferred Drug List (PDL)
New Drug Process**

New Drug Entities

New drug entities (including new generics), and new drug product dosage forms of existing drug entities) will be identified weekly and immediately be coded as "**Non-preferred-Prior Authorization required**" until presented at the next scheduled P&T Committee meeting. These prior authorization restrictions will continue through the review process, including while committee recommendations are being made, and lasting until DHS makes a final determination.

Exceptions to the Non-preferred default policy for new PDL drugs

There are two major potential exceptions to the non-preferred default policy for new PDL drugs:

A). If a new medication is classified as a priority drug by the FDA, the State may indicate that such a drug is preferred, until the drug is reviewed by the P&T Committee at the nearest scheduled meeting.

B). The State may decide to designate a new drug as "draft preferred" and provide immediate access and increased therapeutic choice to physicians until the drug is reviewed by the P&T Committee at the nearest scheduled meeting if:

- a new drug is therapeutically equivalent or superior to existing preferred or non-preferred choices, and
- is as safe or safer than existing preferred or non-preferred choices, and
- the net cost, adjusted for all rebates, is less expensive than all existing preferred choices.

Existing PDL Drugs

Although the State discourages supplemental rebate offers on existing PDL drugs between annual bidding periods, it may entertain such bids and may accept them if they are determined to represent significant additional savings or if they would replace a delinquent manufacturer's product or a preferred drug pulled from the marketplace or significantly restricted by the FDA. This interim preferred status will remain in effect until the drug is reviewed by the P&T Committee at the next scheduled meeting. Supplemental rebates will only be invoiced for approved drugs under contract. Draft preferred drugs with supplemental rebates will not be invoiced until approved by the Committee and accepted by the State. At that time, the supplemental rebates will be invoiced back to the effective date of the agreement, which is the date the drug began to benefit from preferred status.
