Prior authorization is required for short acting fentanyl products. Payment will be considered only if the diagnosis is for breakthrough cancer pain in opioid tolerant patients.

- Are indicated only for the management of breakthrough cancer pain in patients with malignancies already receiving and tolerant to opioid therapy for their underlying persistent cancer pain.
Are contraindicated in the management of acute or postoperative pain. Because life-threatening hypoventilation could occur at any dose in patients not taking chronic opiates, do not use in opioid non-tolerant patients.
