

Request for Prior Authorization
CNS STIMULANTS AND ATOMOXETINE

(PLEASE PRINT - ACCURACY IS IMPORTANT)

Form with fields for IA Medicaid Member ID #, Patient name, DOB, Patient address, Provider NPI, Prescriber name, Phone, Prescriber address, Fax, Pharmacy name, Address, Phone, Pharmacy NPI, Pharmacy fax, NDC.

Prior Authorization (PA) is required for CNS stimulants and atomoxetine for patients 21 years of age or older. Requests will be considered for an FDA approved age for the submitted diagnosis. Prior to requesting PA for any covered diagnosis, the prescriber must review the patient's use of controlled substances on the Iowa Prescription Monitoring Program (PMP) website. Payment for CNS stimulants and atomoxetine will be considered under the following conditions: 1) Attention Deficit Hyperactivity Disorder (ADHD) meeting the DSM-5 criteria and confirmed by a standardized rating scale (such as Conners, Vanderbilt, Brown, Snap-IV). Symptoms must have been present before twelve (12) years of age and there must be clear evidence of clinically significant impairment in two or more current environments (social, academic, or occupational). Documentation of a recent clinical visit that confirms improvement in symptoms from baseline will be required for renewals or patients newly eligible that are established on medication to treat ADHD. Adults (≥ 21 years of age) are limited to the use of long-acting agents only. If a supplemental dose with a short-acting agent is needed for an adult in the mid to late afternoon, requests will be considered under the following circumstances: the dose of the long-acting agent has been optimized, documentation is provided a short-acting agent of the same chemical entity is medically necessary (e.g. employed during the day with school in the evening), and will be limited to one unit dose per day. Children (< 21 years of age) are limited to the use of long-acting agents with one unit of a short acting agent per day. 2) Narcolepsy with diagnosis confirmed with a recent sleep study (ESS, MSLT, PSG). 3) Excessive sleepiness from obstructive sleep apnea/hypopnea syndrome (OSAHS) with documentation of non-pharmacological therapies tried (weight loss, position therapy, CPAP at maximum titration, BiPAP at maximum titration or surgery) and results from a recent sleep study (ESS, MSLT, PSG) with the diagnosis confirmed by a sleep specialist.

Payment for a non-preferred agent will be authorized only for cases in which there is documentation of previous trial and therapy failure with a preferred agent. * If a non-preferred long-acting medication is requested, a trial with the preferred extended release product of the same chemical entity (methylphenidate class) or chemically related agent (amphetamine class) is required. The required trials may be overridden when documented evidence is provided that the use of these agents would be medically contraindicated.

Requests for Vyvanse for Binge Eating Disorder must be submitted on the Binge Eating Disorder Agents PA form.

Preferred

- Amphetamine Salt Combo
Amphetamine ER Caps
Aptensio XR
Armodafinil
Atomoxetine
Concerta
Daytrana
Dexmethylphenidate Tabs
Focalin XR
Methylin Solution
Methylphenidate IR Tabs
Methylphenidate ER 20mg Tabs

- Modafinil
Quillichew ER
Quillivant XR
Vyvanse

Non-Preferred

- Adderall
Adderall XR*
Adzenys ER Susp
Adzenys XR ODT
Amphetamine Sulfate Tabs
Cotempla*
Desoxyn
Dexedrine*
Dexmethylphenidate ER caps*
Dextroamphetamine ER Caps*
Dyanavel XR
Evekeo
Focalin
Methylphenidate CD
Methylphenidate Chew
Methylphenidate ER Tabs
Methylphenidate ER Caps
Methylphenidate LA Caps
Mydayis*
Nuvigil
Procentral
Provigil
Ritalin
Ritalin LA
Strattera

**Request for Prior Authorization
CNS STIMULANTS AND ATOMOXETINE
(PLEASE PRINT – ACCURACY IS IMPORTANT)**

Diagnosis:

Attention Deficit Hyperactivity Disorder (ADHD)

Age of patient at onset of symptoms: _____

Date of most recent clinical visit confirming improvement in symptoms from baseline: _____

Rating scale used to determine diagnosis: _____

Documentation of clinically significant impairment in two or more **current** environments (social, academic, or occupational).

Current Environment 1 & description: _____

Current Environment 2 & description: _____

Requests for short-acting agents for adults:

Has dose of long-acting agent been optimized? Yes No

Provide medical necessity for the addition of a short-acting agent: _____

Narcolepsy (Please provide results from a recent ESS, MSLT, and PSG)

Excessive sleepiness from obstructive sleep apnea/hypopnea syndrome (OSAHS)

Have non-pharmacological treatments been tried? No Yes *If Yes, please indicate below:*

Weight Loss

Position therapy

CPAP Date: _____

Maximum titration? Yes No

BiPAP Date: _____

Maximum titration? Yes No

Surgery Date: _____

Specifics: _____

Diagnosis confirmed by a sleep specialist? Yes No

Other (specify) _____

Prescriber review of patient's controlled substances use on the Iowa PMP website:

No Yes Date Reviewed: _____

Please document prior psychostimulant trial(s) and failures(s) including drug name(s) strength, dose, exact date ranges and failure reasons: _____

Other - Please provide all pertinent medication trial(s) relating to the diagnosis including drug name(s) strength, dose and exact date ranges: _____

Reason for use of Non-Preferred drug requiring approval: _____

Prescriber signature (Must match prescriber listed above.)	Date of submission

IMPORTANT NOTE: In evaluating requests for prior authorization the consultant will consider the treatment from the standpoint of medical necessity only. If approval of this request is granted, this does not indicate that the member continues to be eligible for Medicaid. It is the responsibility of the provider who initiates the request for prior authorization to establish by inspection of the member's Medicaid eligibility card and, if necessary by contact with the county Department of Human Services, that the member continues to be eligible for Medicaid.
