Prior authorization (PA) is required for risdiplam (Evrysdi). Payment will be considered under the following conditions:

1) **Patient has a diagnosis of spinal muscular atrophy (SMA); and**
2) **Patient meets the FDA approved age for diagnosis; and**
3) **Dosing follows FDA approved dose for age and weight; and**
4) **A negative pregnancy test for females of reproductive potential prior to initiating treatment; and**
5) **Female patients of reproductive potential have been advised to use effective contraception during treatment and for at least 1 month after last dose and male patients of reproductive potential have been counseled on the potential effects on fertility; and**
6) **Patient does not have impaired liver function; and**
7) **Will not be prescribed concomitantly with other SMA treatments, such as Spinraza (nusinersen), Zolgensma (onasemnogene abeparvovec), or any other new products that are approved by the FDA and released: and**
8) **Documentation of previous SMA therapies and response to therapy is provided; and**
   a. **For patients currently on Spinraza, documentation Spinraza will be discontinued is provided, including date of last dose, and the appropriate interval based on the dosing frequency of the other drug has been met (i.e. 4 months from the last dose when on maintenance therapy); or**
   b. **For patients treated with Zolgensma, requests will not be considered: and**
9) **Is prescribed by or in consultation with a neurologist: and**
10) **Pharmacy will educate the member, or member's caregiver, on the storage and administration of Evrysdi, as replacements for improper storage or use will not be authorized.**

If the criteria for coverage are met, requests will be approved for 1 year. Requests for continuation of therapy will require documentation of a positive response to therapy including stabilization or improved function unless intercurrent event (fracture, illness, other) affects functional testing.
