Prior authorization (PA) is required for oral isotretinoin therapy. Payment will be considered for preferred oral isotretinoin products for moderate to severe acne under the following conditions: 1. There are documented trials and therapy failures of systemic antibiotic therapy and topical vitamin A derivative (tretinoin or adapalene) therapy. Documented trials and therapy failures of systemic antibiotic therapy and topical vitamin A derivative therapy are not required for approval for treatment of acne conglobata; and 2. Prescriber attests patient has enrolled in and meets all requirements of the iPLEDGE program. Payment for non-preferred oral isotretinoin products will be authorized only for cases in which there is documentation of trial(s) and therapy failure with a preferred agent(s). Initial authorization will be granted for up to 24 weeks. A minimum of 8 weeks without therapy is required to consider subsequent authorizations. The required trials may be overridden when documented evidence is provided that use of these agents would be medically contraindicated.
