

Preferred Drug List

NEW DRUG REVIEW

Proprietary Name: OptiNate™

Common Name: Prescription Prenatal/postnatal/multivitamin/mineral capsule tablet combination with essential fatty acids

PDL Category: Miscellaneous

<u>Comparable Products</u>	<u>Preferred Drug List/ Recommended Drug List Status</u>
Duet® Tab	Preferred
Embrex® 600	Non-Preferred
Precare® Prenatal	Non-Preferred

Summary

Indications and Usage: Improvement of nutritional status of women throughout pregnancy and the postnatal period

Dosage Forms: Combination package of tablets and L-Vcaps™

Recommended Dosage: One tablet and one L-Vcaps™ by mouth once daily

Common Adverse Drug Reactions: Allergic reactions to the folic acid component

Contraindications: Any known hypersensitivity to any of the products ingredients

Manufacturer: First Horizon Pharmaceutical Corporation

Analysis: OptiNate™ combines a prenatal vitamin tablet with an omega-3 fatty acid capsule called L-Vcaps™. There are several preferred prenatal vitamin products available on the Preferred Drug List that provide adequate supplementation of folic acid, and calcium with or without iron that are more cost effective.
